To access the service park, the «assistance» sticker must be stuck on the windshield. Thank you for following and respecting the instructions of the organization's volunteers.

For followers:

Any other trailing vehicle must park in the public car parks.

For All:

Administrative, technical checks, service parks and park closed in the morning are all close to each other.

Following the technical checks, the grandchildren and great grandchildren of Sauveur Bouchet, creator of the rally of the peaks, will present you the trophy of the winner 2023 and will put it into play on the occasion of a tribute. Thank you for coming.
